

SR-42FZ/SR-42HP
Large Capacity Electric Rice Cookers

These Electric Rice Cookers can cook up to 46 cups of cooked rice.

SR-42HP

Thermostat for Precise Temperature Control

A built-in thermostat maintains heat at a precise and uniform level.

Direct Heating System

A special sheathed heating element heats the bottom of the pan directly to minimize heat loss and save energy.

SR-42HP

Keep Warm Feature

When cooking is complete, the unit automatically switches to Keep Warm Mode and rice is maintained at the perfect temperature. (SR-42HP only)

SR-42FZ

Cooking Indicator

The "Cooking" light indicates cooking is in progress and automatically extinguishes when cook time is complete.

One Step Automatic Cooking

With just the press of a button, your rice is cooked to perfection.

Tips

Prewash the rice by stirring in tap water. Drain out the water and repeat until water comes out fairly clear.

Measuring Cup is included
