Safety and Warranty

WARNING:

1. If the supply cord is damaged it, must be replaced by Omcan, its service agent or similarly qualified persons.
2. This appliance shall not be cleaned with a water jet.
3. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have supervision or instruction

Safety and Warranty

- concerning use of the appliance by a person responsible for their safety.
4. Children should be supervised to ensure that they do not play with the appliance.
 5. Before using this machine, make sure the machine has an operational electric ground.

To ensure safe operation, read the following statements and understanding their meaning. Please read carefully.

WARNING: BURN HAZARD

Do not touch hot food, liquid or heating surfaces while equipment is heating or operating. Hot surfaces and food can cause injury to the operator (burning of skin). Allow the hot surfaces to cool before handling. Do not drop or spill water onto the cooking surface.

WARNING: ELECTRICAL SHOCK HAZARD

Do not let water or any other liquid enter the machine. Liquid entering the machine can cause electrical shock.
Do not spray water or cleaning products on the machine. Do not use the machine if the power cord is damaged or changed in any way.

To reduce risk of injury or damage to the machine:

- Use only grounded electrical outlets corresponding with the electrical requirements of the machine.
- The equipment must be placed on a flat, level surface.
- Do not use an extension cord with the machine.
- Turn off and unplug the machine before any maintenance or inspection.
- Keep the machine and its power cord from flammable or corrosive products.
- Do not leave the machine unsupervised when operating.
- Do not operate the machine if it is damaged in any way.

Omcan display warmers are engineered and designed to maintain previously cooked foods at serving temperatures. Improper use of this machine's maximum temperature for extended periods of time, in an attempt to thoroughly cook food products, is prohibited. Such operation will void the manufacturer's warranty and may result in under cooked and therefore unsafe food.

1 YEAR PARTS AND LABOUR BENCH WARRANTY

Within the warranty period, contact Omcan Inc. at 1-800-465-0234 to schedule a drop off to either an Omcan authorized service depot in the area, or to an Omcan Service warehouse to repair the equipment.

Unauthorized maintenance will void the warranty. Warranty covers electrical and part failures, not improper use.

Please see <https://omcan.com/disclaimer> for complete info.

Safety and Warranty

3. Install the shelf brackets into the supports so that the locking tabs are pointing to the back of the unit.
4. Fix the taller doors to the front with the handles facing outwards.
5. Fix the shorter doors to the back so the handles face outwards.

NOTES

1. Unit must be placed on a solid and level surface.
2. Before using this machine, please make sure the machine is safely grounded.
3. The voltage supply must be correspond with the rated voltage of the warmer.
4. Each time before using the machine, add 0.6 liters (0.16 gallons) of water into the water tray of this machine.
5. After connecting the machine to the power supply, the power indicator light will be on. Turn the heating switch to select the desired temperature. Air convection will keep the desired temperature throughout the machine.
6. If light is needed, use the light bulb type equipped with the machine.
7. After using, always clean the machine. For safety reasons, cut off power supply and unplug before any cleaning.
8. If any abnormal objects, substances or noises are observed, turn the machine off and contact Omcan at 1-800-465-0234.

Operation

Before using the machine, a complete cleaning of the machine must be performed. Before placing food in the warmer, let the machine operate at desired temperature for 30 - 45 minutes. Food must already be cooked and heated before placing in the machine. This machine is not designed to cook food. Check the temperature inside the machine regularly. If the machine is placed in an area with high humidity, open the rear doors to stop condensation.

NOTE: Monitor food temperature closely to ensure food safety.

1. Adjust the thermostat control to the designed temperature.
2. Turn the light switch position to ON if the light is desired.
3. It may be necessary to add water to the pan to increase the humidity inside the machine. Monitor the water level closely.
4. When finished with the machine, turn the thermostat control to the lowest setting and switch the light to the OFF position. Then unplug the unit. If removing hot items from the unit, use protective gloves.
5. Let the water pan completely cool before disposing the water.
6. Proceed to clean the machine by the instructions listed (see below).

Maintenance

CLEANING

To increase service life, clean equipment daily.

NOTE: Do not use detergents which are acidic, corrosive or contain chlorine.

NOTE: Do not immerse the cord, plug or machine in water or any other liquid. Do not use pressurized water jets to clean the machine.

1. Turn the machine off and unplug it from the electrical socket. Let the machine cool completely before cleaning.
2. Use a damp cloth or sponge, use detergent and water to clean the equipment.
3. A high quality, non-toxic glass cleaner can be used to clean the glass on the machine.
4. Completely dry the machine before using.
